HONGKONG, MONDAY, JULY 20, 1866.

THE letter we published on Saturday from our correspondent in Talwanfoo contains a serious indictment against the Japanese. In giving publicity to the charges it contained, we know we incurred a heavy responsibility, but, unfortunately, we had no option but to accept as true the statements of our correspondent than whom few have had a more extensive knowledge of Formosa and its unkappy inhabitants. In a private letter addressed to us, he writes :-Affairs in South Formosa are becom-

ng desperate. made no statements which I cannot bear out with facts. In the name of common humanity I pray you print them; let the world know the true state of the people of Formess. of affairs.' What the real state of affairs is our readers will have learned from our issue of Saturday. Wherever the Japanese have gone they have not only shown an incomprehensible lack of consideration for the susceptibilities and prejudices of the Chinese in Formoss, but have exhibited a wanton dis regard for human life that bordered on brutal, degrading, unmitigated, and loathsome savagery. If they had set out from Japan with the deliberate purpose of exterminating the Chinese population they could not have believed in a more despicably brutalising manner. Without the faintest excuse, whole villages have been ruthlessly burned down; the scared villagers, where they remained, have suffered indignities, or, in many instances, have been put to The P. M. ricamship City of Rio de Janeiro. the aword and when they sought safety in the hills they have been lured back, and, in spite of official proclamations, butchered in cold blood; ancestral graves, than which there is nothing more socred in the eves of the Chinese. have been desecrated without rhyme or reason; and, worst feature of all when we bear is mind that there is no war in the country, the women and girls have been sacrificed to the lust of the lasci-

vious soldiery. Our correspondent makes no mere assertions; he gives substantial corroboration for the information beforwards us; and with every temptation to paint in lurid colours a pleture of rapine and bloodshed, we are inclined to believe he paints the present horrors of South Formosa feithfully but with no attempt to exaggerate. Another gentleman, whose veracity. were we tt liberty to publish his name, would be attested by the Foreign residents of every Treaty Port in China, woes further than our Taiwanfoo corres-

The rebellion in Formosa is spreading brought about by the air cious cruelty of the Jannese towards the Galet country people, who, it is not impossible to believe, will be goaded into rising en tiness against their persecutors. The preventios in Armenia hale into utterhas transpired in Formosa since the Journese took possession of the island. We are alraid the righteoneness of our correspondent s.indignation bas interfored somewhat with his sense of proportion .- Ed., C. M. It is high time that the attention of the civiliard world was drawn to what is going on, and, in The s.m. Mount Lebason, which I it here on the interests of common humanity, a atop put to it. The English view of the Japanese is an utterly false one. They ere in reality savages. A certain Bri- The official statistics of Penang for 1895 tish officer of high rank told us rather more than a year ago that the Japanese are saveges still; he spoke from strong prejudice, but it would al most appear that in Formosa, away from the eyes of Foreigners (as they week ending July 19. supposed) they have elipsed the leash of their accient savage instincts. Ed. C. M. It is a grave mistake to accept what is known as "the Edwin Arnold estimate of the Japanese "-- that fine poet and excellent judge of a mecemé has thrown a glamour over the country that is torribly misleading. The brave nation that was for months ofraid to attack an old Canton pirate and a handful of rapped coolies is now making a heroic display in killing unarmed men, women and obildren with-

unce happy Formosa. garding the departure etpocities in Formose, and however traviling we are to We regret inving to acknowledge the fact of Japanese savagery. Of the Brifirst to recognise dapan's superiority catra versut things that have been write light aborthan i led the definish it out applied to the theining septemble per saying

within the lifetime of a single generation, has not merely de-orientalized itself, but has placed itself well in the first rank of the Great Powers of the civilised world, we still have great faith in the future of Japan, if the people do not become intoxicated—as they are in imminent danger of becoming-by their own success. An English authority whose knowledge of Japan is too evideatly gathered at second-hand from writers of the Edwin Arnold school. telle us that the extent and the reality of her de-orientalisation of herself are alike misapprehended. Her new civi-lisation is disbelieved in. It is popularly supposed to be a mere veneer, which will peel off under a slight stress of wear and tear, and reveal something alarmingly like the naked savage. She is regarded as at best nothing better than a clever and rather successful copyist of superficialities. All this is unjust, and worse; it is dangerous." Well, we simply place the statements of fact from Formosa side by side with this English authority, and leave our readers to judge whether the veneer is wearing well in Formosa. The Japanese may be many things that are good, and unquestionably possess many good qualities, but up till the present time they have not proved successful in their new territory. Many pictures were shown us of the excellent discipline of the Japance during the war. If the Japanese Government and the Japanese officers are not working out a schame for the annihilation of the Chinese and abortgines of Formosa, there is urgent need for calling this discipline into play once more; and if Japan refuses to follow up her professions of humanity and civilisation by deeds in keeping with these professions, it may, even at this late hour, be necessary for some of the Great Powers to adopt a new policy towards Japan which will humble the pride of this somewhat arrogant race and teach them that, although they have good reason to be proud of their progress during the past thirty-five years, they are not the sole arbiters of the destiny

THE CHINA REVIEW. PUBLISHED BI-MONTHEY

[1] HIS Review, which was intended to meet.

1. the wants of many students of Chinese caused by the discontinuance of Notes and Queries on China and Japan, has reached its I wenty-second Volume. The Revision discurses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. is includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Moleicie, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new doparture has been taken, and the Review new gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers.- It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

recent works on such topics. Authors and the Continent are given choice of. Publishers are requested to forward works Editor, China Review, care of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points. The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin. or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship assiduously cultivated. Amongst the regular contributors are Drs. Chaimers, Eitel, Bretschmeider, and Hirth, Professor Legge, and Messrs Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Fabor, Kopsch, Parker, Playfair, Giles, Piton, and Taylor,—all well-known names, ndicative of sound scholarship and thorough mastery of their subject. Dear Dr Marques, -It was with deep regret that we first heard of your retirement on penaion from the Government Service of this Colony, as we felt that by your withdrawal the public had lost the valuable services of an honourable and most conscientious officer.

For fully fifteen years were you attached to the Medical Department of the Public ness. Service, and during the whole of that period you discharged your various humane and arduous duties, which were oftentimes attended with considerable danger to your own health, to the entire satisfaction of the Community at large. You were always skilful and painstaking, kind and considerate in the treatment of your patients, and many there are who can testify with gratitude to your great skill

Your constant sympathy with the Chinese and your genuine admiration for your genial and kind disposition, have at- Chang declared that the good feeling tracted to yourself many admirers and friends from that people, and we who are now addressing you do so on behalf and as the representatives of a very large number of our fellow-countrymen.

THE DISTURBANCES NEAR THE YELLOW RIVER.

Shanghai, July 14. Despatches received vesterday from Nanking meport that Yuan Tantai of Heliahou, on the southern banks of the Yellow River in this province, bas sent urgent telegrams to H.E. Liu K'unyi seking for help awing to an irruption of Shantung bandita from across the Yellow River into Hailchon. These bandita have moreover been joined by some 3.000 local bandits, who have burned, pillaged and devastated everything on their line of march. The only force at the disposal of Yuan Taotal is the Fang brigade of five battalions, nominally 2,500 strong but really under 2,000 men. In the several akirmishes which have taken place between the government troops and the bandils, the latter have invariably come off victorious owing to superior numbers. As a matter of fact it is reported to Yuan Taotai by the officers commanding the troops that the bandits are well armed, which seems to confirm the report that these bandits are old soldiers who deserted during the Japanese invasion of Shantung, carrying their arms and ammunition with them. Yuan Teotsi also telegraphs that unless aid be immediately sent to him he cannot answer for an invasion of the adjoining prefectures by the bandits, whose numbers are being constantly augmented by the disuffected and the members of the Ko-lao Hui society from all parts of the country north and south of the Yellow River. In response to the urgent appeal of Yuan Taotal, H.E. Liu K'un-vi the old 'Hsiang' or Hunan brigade, three battalious of the vice-regal bodyguards, one battalion of cavelry and two batteries of artillery, with orders to make forced marches to the scope of disturbance. If the bandits. or rather insurgents, manage to keep the Imperial troops abut up inside the walled cities of Relichou prefecture, their next objective will be the prefectures of Yangchow on the southwest, and Huaian on the south the legitimate influence of the French in of Hatiohon; The situation is considered sufficiently serious to warrant an order to mobilise the territorial troops of these two prefectures to march to the relief of Helichou, in addition to those sent from Nanking, A steam launch flotilla is also under orders to go up the Grand Gatal to two revolver shots at him. (N.-C. Daily News' correspondent.) Chengiu, June 16.

A week or more of them in the fair capital of Szechuan. There was the 28th of Mayhow better celebrate than to hold the prayer meeting which was postponed a year previous on account of the unexpected happening? Righteen missionaries were then in the city, fifteen now. All the missionaries who were in Chingtu during the riots are in Szechuan save three. . These foreigners are strange people, muses the half-philosophical China-man, a year ago we quietly escorled them to the river and skipped. We thought we were accomplishing a masterpiece of ourning it overawing and banishing them for ever from our city. Seven months scarcely pass and here they are again. Our officials vie with each other to show them kindness. Scarcely a month passes without fresh arrivals. We tore down their mud walls. and now they are building brick ones. Where formerly they occupied wooden more confidence and up to this morning he buildings they have now brick edifices has had fourteen cases under his care and in under course of erection. IMPORT DUTY IN CHINA.

On the authority of Rater we learn that one of the objects of H.E. Li Hung-chang's visit to Europe is to obtila the consent of the interested powers to raise the ad valorem duties from five per cent, which (though most of them are specific and have drifted away in both directions from a strict five per cent) is the basis of the present tariff, to

a basis of eight per cent. This subject is of vital importance to our trade with China. His Excellency's overtures will, in all probability, meet with the approval of Western Courts the name as Japan, where nearly all the Powers have already consented to a greater increase in duties generally. Unless prompt necesures are taken a very serious prospect is before the majority of merchants now engaged in the East, and it needs a keen look-out on the part of the different Chambers of Commerce to see that this matter is brought to the notice of the proper authorities in Peking, before the thin end of the wedge is inserted by Chinese diplomats into our all-

too-confiding home governments. We learn on good authority, that the subkong Chamber of Commerce (principally in the interest of the augar industry), but we regret that the matter was treated so lightly able one, that China must increase her more all rheumatic pains had left me. COMBUSTION

in the human body is of the utmost importance in determining vitality. Unless combustion is active, the vital organs lose their power, the body loses flesh, skin becomes pale, and the whole system is in danger.

Scott's Emulsion

induces a healthy combustion, by supplying the blood with the principle of carbon—the principle which enriches the blood, assists in making healthy flesh, and gives force to the vital organs. By taking Scott's Emulsion you gain the human steam that keeps the body vigorous. It nourishes when all other food is of no avail. All chemists.

WHAT BATES WANTED TO KNOW. "I shall be obliged if you can answer me one question," said my friend Bates, as he lay on the couch one day is my room sursing his aching leg. "Why doss exposure to wet or cold bring on an attack of rheumatism at one time, when a like exposure for a score of times leads to no such result ?"

Before I set down in writing the answer I gave him I wish you would read the following letters, as no doubt the authors of them will be interested in the same point. "In November, 1892," says the one, "I had an attack of rhoumatic fever, and was confined to my bed for four weeks, during which time I suffered fearfully. I had awful pains all over me; my joints swelled up, and I was so helpless I could not raise my hand to my mouth. After the fever left me I was extremely weak, and so emaciated I was little more than skin and bone. Before answering the question of my friend Bates (who was a chronic rhoumatic) I asked him one; "Why does a lighted much, dropped into the road, die out harmlessly, but when dropped into a hayrick, set up a configration?
